Visions Clubhouse offers psychosocial rehabilitation services designed to provide social and/or recreational activities for people who are living with the effects of mental illness. The programs help the individual to gain confidence and readjust to living and/or working in the community. The program includes a work-ordered day, educational opportunities, community integration, vocational support and individualized staff services. Clubhouse members are given opportunities for voluntary involvement in all aspects of the program, including planning, operations, and program evaluation.

After admission to RRCSB services, Mental Health Case Management refers eligible individuals to Visions as appropriate.
