Fee Structure

No Fee

Languages Spoken

English

,

Spanish

SCI Network offers peer support for people with spinal cord injuries, for spouses/significant others, and for family and friends. Historically it has been difficult to keep an ongoing support group for people with SCI. The Network's Peer Support Program fills the gap.

Leave an e-mail comment to Scin.kimball@yahoo.com or call the office at 703-525-3268, give us information about age, interests, level of injury if applicable, etc., and we will find your peer. After that, we set up a meeting or just exchange phone numbers, and let you take it from there.

Partially accessible to persons with disabilities.

{Languages: Agency can provide some assistance for Spanish-speaking persons.
Non-English speakers may bring their own interpreter}
