English

Catastrophic Injury Program provides services for patients with catastrophic injury (spinal cord or traumatic brain injury). The program helps friends and families of catastrophic injury victims raise funds for medically related expenses.

The organization provides on-going guidance and expertise to organize, launch, and sustain a community fundraising campaign. Staff offers support at many levels: fundraising ideas and how-tos, media relations, creating event flyers, patient websites and help to mobilize their communities to fundraise for uninsured expenses related to the catastrophic injury, including home and vehicle modifications and home health care.

To begin fundraising or to learn more about HelpHOPELive, call 800-642-8399 to speak with a Patient Services Coordinator. To find out more how HelpHOPELive can help with fundraising or financial assistance, visit the website.
