A wide range of specialty services are available at Augusta Health, including 255 acute care, surgical services, cardiology services, cancer care and women's services. More than 200 physicians are on the medical staff to provide a comprehensive range of specialty care.

The hospital provides extensive community services including wellness, home health, outpatient services, hospice and transportation services. A comprehensive fitness center with indoor track, pools and tennis and racquetball facilities, an ambulance and transportation building and physician office building are on Augusta's campus. Also contains a Psychiatric Behavioral Health facility and Child Care Center.

New services recently added include specialized endovascular surgery, plastic surgery, new radiology procedures, comprehensive Pain Management Center which offers techniques such as acupuncture and biofeedback in addition to traditional pain therapies, and a wide range of new therapy services.

Translation service available.
