Lee County Behavioral Health provides outpatient mental health and substance abuse treatment programs for children, adolescents, and adults. Evaluation and treatment of all child and adolescent behavioral disorders are offered. Services include individual and group psychotherapy, marital and family counseling, family therapy, psychiatric services, parenting classes, case management, medication monitoring and education, consultation services, intensive in-home services, and outpatient services for substance-abusing women who are pregnant or who have dependent children.

Licensed by Virginia Department of Behavioral Health and Developmental Services.
Report any problem to this agency.
