Brock Hughes Medical Center was formed in 1995 by concerned community leaders to meet the healthcare needs of the uninsured, low-income residents of Wythe and Bland Counties. The clinic is named for the late Dr. C. Brock Hughes who was a much-admired member of the medical community. The clinic began operating with only volunteers and now, employs a staff of two full-time Nurse Practitioners and one part-time Nurse Practitioner, a Certified Medical Assistant, a part-time Pharmacist, a Pharmacy Technician, a Medical Receptionist, an Executive Director, and several community volunteers, including a volunteer Medical Director. BHMC provides the community with several quality healthcare services including primary care, ancillary care, prescription medications, health education, nutritional counseling, and specialty referrals. They also serve as a training site for registered nurses, nurse practitioners, and medical assistant students at several colleges and universities, as well as, a community service site for WCC students who are seeking to fill their tuition waiver obligation.
