Ride Connection is a mobility management program, funded in part by the Virginia Department of Rail and Public Transportation, to help older adults and persons with disabilities have the knowledge of and access to transportation to help them age safely at home and live a healthy, connected life.

The ride counselors offer transportation education, travel training, and referrals to local transportation providers. For those who meet eligibility requirements, Ride Connection may also be able to provide two (2) round-trip rides to medical appointments for persons living in the service area.
