This Agency is a recipient of the Behavioral Supports and the Complex Health Supports Provider Specialty Designations.

The Community Living Program provides community-based support services to individuals struggling with mental health diagnoses. Services are provided by nine skilled mental health counselors in areas such as health management, social skills building, housing assistance, and independent living skills, including time management, household chores and personal budgeting. The goals are community integration and socialization, individual recovery and empowerment and prevention of hospitalization. Counselors work with individuals in the community while collaborating with other providers and connecting with family members in order to provide a safe, supportive, non-threatening environment in which to move forward.
