Community Free Clinic of Newport News offers primary care to individuals aged 19 to 64 by appointment only. If you do not have chronic conditions, you may only need a physical check-up once per year unless you become ill.

For chronic conditions such as diabetes and heart disease, there will be classes to help you manage your condition. Women's and Men's Health - screenings and special education will be provided to help you improve your health and to prevent complications from your health problems. A social worker is also available by appointment to help you.

Some medications will be available at the clinic; staff will work with you to secure other medications in the most cost-effective way possible.

Screenings are done at the Clinic, call to schedule an appointment. Bring to the screening a photo ID and the most recent year's income tax return. Call to find what other documents are required.
