Specialized Care is available for Parkinson's and Movement Disorders, including ALS, MS. Caregivers can assist with transferring, medical management plans, ongoing care for deep brain stimulation, community education and support, and senior transportation.

Specialized Care is also available for Alzheimer's disease. Caregivers who are experienced in helping those with Alzheimer's and memory impairment have completed a specialized intensive memory impairment training program. Care services can include help facilitating communication, activities for daily living, mitigating behavioral changes, wellness activities, safety measures, and more.
