At Dominion Hospital we're committed to providing exceptional healthcare to everyone, regardless of financial status. Our financial counselors can help you identify ways to fulfill your financial responsibility.

Dominion Hospital's charity care policy applies to uninsured patients who come to our facilities for emergency treatment. This policy provides financial relief to patients who qualify based on a comparison of their financial resources and/or income to Federal Poverty Guidelines. Specifically, for non-elective care, patients whose household financial resources and/or income is at or below 200 percent of the Federal Poverty Level receive free care.

To qualify for charity care, uninsured patients will be asked to complete a simple form (English version and Español version) and in some instances, to provide additional income and resource verification information.

We also have an uninsured Financial Discount Program designed for uninsured patients who do not qualify for Medicaid, charity care, or any other discount program offered by our facilities, and whose household financial resources and/or income is more than 200 percent of the Federal Poverty Level. These patients receive a bill that reflects a discount from total charges.

We will work with our financially-challenged patients to establish an appropriate payment plan based on the amount due and the patient's financial status. For us to offer discounts and other financial relief, please recognize that patients will be asked to cooperate with our financial counselors by providing them with essential financial information. Translation services are available.
