Valley Health provides comprehensive, acute, assessment and treatment of psychiatric disorders with or without co-morbid identified substance abuse. We have programs for both adults (18 and up) and seniors (55 and up).

Each patient's treatment is individualized and developed by a multidisciplinary team of psychiatrists, therapists, psychiatric nurses and nurse case managers, psychiatric social workers and activity coordinators. Treatment options include individual, family and group modalities of therapy, and other therapeutic activities to promote wellness and recovery.
