American Organ Transplant Association (AOTA) has recognized the need to assist transplant patients with the cost of their immunosuppressant drug therapy. They offer prescription assistance at no charge. Simply click on www.aotarx.com for access to the Prescription Drug Assistance Program and enroll for free. Then download your free prescription card.

Once your enrollment is active, you can use the on-line Rx Pricing tool to determine your medication price at any of nearly 33,000 participating retail pharmacies nationally. At the time of purchase, simply present your identification card and your prescription to your pharmacist and ask that all future prescriptions be filled utilizing the program.
