English

The CCFA Online Support Group connects people with Crohn's disease or ulcerative colitis who face similar challenges. This 4-week series consists of weekly chat sessions that cover specific IBD-related topics and allow participants to share their views on each topic. Each 90-minute chat session is guided by a CCFA moderator.

By sharing experiences and learning from one another, participants will create their own supportive community. To help foster this sense of community, each support group is limited to 35 registrants. However, we offer monthly opportunities to participate. See below for more information and to register.

For more information and to register, visit the [website](#).
