The Drive For Hope program offered by Hope For The Warriors engages service members who have been injured and are recovering to focus on transition and learn to drive again. The goal is to maintain independent driving and transportation; allow individuals to return to work; increase participation in family activities and transition

back into their communities, while reclaiming roles that were lost due to their medical condition.

Drive for Hope is in collaboration with the Driver Rehabilitation Center of Excellence and is designed to help service members and veterans regain independence. To learn more, see [Apply for Services](#)

Service Area(s)

Nationwide
