bites/rabies exposures.

The Middlesex County Health Department performs soil evaluations for on-site sewage disposal systems and on-site evaluations for private drinking water wells. Staff provides periodic inspections of restaurants and grocery stores, and offers training opportunities for food service workers to increase knowledge and skills in food sanitation. They conduct rabies control activities including investigations of all animal bites and perform other environmental inspections and investigations as required by local ordinances.

Please visit the <u>website</u> for more information about these services.
